Automotive petrol engines. BMW is well known for its history of inline-six (straight-six) engines, a layout it continues to use to this day despite most other manufacturers switching to a V6 layout. The more common inline-four and V8 layouts are also produced by BMW, and at times the company has produced inline-three, V10 and V12 engines.. Prototype V16 engines have been made, however they ...

While rivals Lexus and Mercedes-Benz had dipped their toes in the luxury SUV segment, BMW didn't want them to have all the fun. So, in 2000, the German automaker debuted the X5 - the first SUV in BMW history. The base E53 was powered by a 3.0L naturally aspirated inline-six engine while the higher trim levels received a larger 4.4L V8 power plants.
