Breast Cancer | Breast Cancer Information & Overview

Breast cancer is a cancer that forms in the tissues of the breast – usually in the ducts or lobules. Breast cancer can be categorised by whether it is non-invasive or invasive. Breast cancer is also categorised by how advanced the disease is into early, locally-advanced and metastatic. Breast cancer can be classified into subtypes based on hormonal and HER2 receptor status as follows: luminal A-like (ER and PgR positive, HER2 negative tumours), luminal B-like (ER and/or PgR positive, HER2 ...
