Geolam® is a sustainable wood-plastic composite used primarily for architectural elements, cladding/soffit and commercial decking. Eco friendly alternative to wood.

CLADDCO - Cladding Solutions

Composite cladding typically lasts for over 10 years, requiring minimal maintenance throughout its lifespan. Although, if you're using traditional timber joists, this may negatively affect the life expectancy of your wall cladding. This is because timber joists tend to degrade much more quickly than those crafted from composite materials.
