### techieNetizen's Web Log: Dell XPS 15z Multitouch Gestures ...

As many of you have come to find out, some of the new drivers for windows 10 on dell laptops are messed up - you can no longer navigate back and forward while surfing in a browser with three finger multi-gestures - arguably one of the must useful gestures. I had this problem with the touchpad on my e5450.

### Windows 10 touchpad multi finger gestures FIX! - Dell ...

I've found a very strange problem with my new XPS 15z. If I use 2 finger scrolling it stops the screen saver from working and the power settings from dimming the display. I've spent several hours experimenting and I've disabled 2 finger and multi-finger gestures and now the screen saver works consistently.

### XPS 15z Trackpad problem - Dell Community

Three-finger gestures: Flick: you can use a left or right three-finger gesture to easily flip through pictures in a slideshow. Page Up and Page Down: you can also use the the three-finger flick motion up or down (or left and right) to flip through a document one page at a time.

### Dell Touchpad Driver | Driver Details | Dell US

Hi. Some time ago all the gestures for the touchpad (e.g. zoom, two-finger scrolling, etc.) stopped working. I've tried updating, re-installing, deleting and installing the drivers, but to no avail. The touchpad itself works well, it's just the gestures that have disappeared for an inexplicable reas...

## Dell 15z User Guide - soviet-steel.com

Dell is including a spill resistant backlit island style keyboard standard on the XPS 15z. The XPS15z has a multitouch touchpad that supports gestures and has two dedicated mouse buttons. The inclusion of physical buttons is probably a wise one since many PC notebooks haven't been able to integrate clickable touchpads as well as Apple notebooks. Dell XPS 15z Display

## Dell XPS 15z: "Thinnest 15" PC on the Planet", Takes on ...

I was able to find a newer driver for the Dell XPS 15 touchpad. It did everything just about great including multi-touch gestures. The problem was that it would stop working and Microsoft Windows Update would over-write it with a generic driver. So not finding a driver with the touchpad driver isn't the end of story as you claim.
