If day trading forex and our winning trades average 11 pips while our losing trades average 6 pips, we only need to win about 40% of our trades in order to produce an overall profit. By trading with a profit target, it is possible to assess whether a trade is worth taking. If the profit potential doesn't outweigh the risk, avoid taking the trade. In this way, establishing a profit target actually helps to filter out poor trades.

the Forex Market. My results from the last three days trading are 43 trades placed, 37 winning trades. I personally either set my Profit target of 20-30 pips or I manually close at change of signal depending on market conditions. Trading with the main trend in higher timeframes can produce great results. Great work! Thank you Angela Crudo
