## Vems m52 pnp

First thing to do is remove any intake piping that may still be attached, put it off to the side. There is an array of metal and vacuum hoses just above the heat shields, and it wraps around the back-side of the engine, remember to label each line that you disconnect. There is also the water feed line, which spans the length of both heat shields, these lines have been heat cycled for 20 years ...
