electric hockey level 1 2

The Put the Charge in the Goal Interactive provides a game-like challenge for Learners to use electrostatic forces to guide a charged puck into a goal. By placing charges on the rink, a charged puck can be attracted and repelled around obstacles and into a goal. Once learners are successful with the first level, they can proceed to the next level.

Physics Simulation: Put the Charge in the Goal

Indicate with circles, including the + or - signs, the charged source objects creating the field. a. b. Did You Know? Electric Field Lines An E field can be represented with E field lines. They have the following properties. The direction of the E field line at a point is in the same direction as the E field at that point.
