Loud Engine Noise Problems of the 2014 Honda Civic

Honda did issue a technical service bulletin 16-012 with a title that describes your vehicle perfectly—engine rattles loudly at temperatures below 40 degrees. Although the engine doesn't need to be completely disassembled, the repair will take about half a day. Depending on the mileage of your Honda, the repair could be under warranty.

Car Doctor Q&A: Honda CR-V Engine Rattles | BestRide

The attitude of the owner towards handling the car also measures how many miles can a Honda civic last. If an owner relies on preventative maintenance, the car will last longer than one's expectations. The Honda Civic owner has to change the car's fluids frequently, check spark plugs, gaskets, engine, and potential oil leaks.

How Long Do Honda Civics Last? An Insight Into The Must

...

Road noise is distracting, irritating and can be a problem, even in a reliable and affordable compact car such as the Honda Civic. Products to reduce the road noise in an automobile are quite popular, and there are many variations which can be used effectively to dampen the vibrations that often cause road noise. Reducing noise in your Honda Civic is fairly simple and can make driving a more pleasant experience.

How to Stop Road Noise in a Honda Civic | It Still Runs

2000 Honda Civic Two Wheel Drive Automatic 124000 miles I have a 2000 Honda Civic that has an automatic transmission. We are the only owners of the vehicle. For the past year and a half there has been a terrible sounding knocking noise under the hood. It sounds like it is coming from inside the engine?

2010 Honda Civic Reliability - Consumer Reports

Brian. Participant. Hello, Recently, I've noticed that my 2007 Honda Civic makes an odd whining noise when accelerating. And it doesn't seem to matter the season. It occurs in the summer, and winter. It is quite an annoyance. However, the whining noise appears to stop after running the car for about 20 minutes.

Odd Whining Noise from 2007 Honda Civic | EricTheCarGuy

I have been driving my 1997 Honda Civic LX for over two years, and this past year the winter has been horrible. Now, every time I start my car (when it is cold) I hear a whining sound. It used to just be when my car was started, but now, the noise has gotten louder and occurs more often.

Whining Noise Coming From 1997 Honda Civic LX.

Under the hood of the LX and Sport trims of the 2020 Honda Civic is a 2.0-liter 4-cylinder engine that makes 158 hp and 138 lb-ft of torque. Like the Corolla, the Civic offers a 6-speed manual on certain trims, but most iterations of the Civic come with a CVT good for 30 mpg city/38 mpg hwy/33 mpg combined.
