The full set of publicly available climate change, forests and water security scores can be explored below - use the search bar to view the score for specific companies or browse with the filter tools. The sector column indicates whether the company was scored for their answers to sector-specific questions, which were introduced in 2018.

Companies scores - CDP

Ensuring environmental sustainability and building resilience to climate change. Smallholder farmers and poor rural people bear the brunt of climate change and the degradation of natural resources. Extreme weather events, such as droughts, storms and floods, are putting pressure on the ecosystems that farmers depend on, as are gradual processes such as rising sea levels and melting glaciers.
