### Gender And Urban Space

Urban spaces are actively constituted through the spatial practices of different groups. Yet developing an understanding of the multiple users who may either be in conflict or create gendered patterns of exclusion is rarely the focus of planning attention, much less policy intervention. The right to everyday life

Abstract. Informed by feminist debates about the distinction between public and private in western urban societies, this article examines some urban landscapes created or transformed in recent decades with a view to assessing the extent to which emancipatory conceptions of gender are apparent. Evidence drawn from the city of Edinburgh shows how divisions between public space and private space operate at different scales and take different forms in different neighborhoods.

Gender, Sexuality, and Space by Jen Jack Giesecking. Attempts to understand the mutual co-production of space and identity have ranged across discussions of race, ethnicity, gender, age, disability, nationality, and sexuality. In particular, "gender and space" and "sexuality and space" are recurring topics in the study of place and identity. For example, the Gender & Geography Bibliography has been the on-going project of dozens of scholars for nearly three decades and now lists ...
