### HP 10bII+ Financial Calculator Manuals | HP® Customer Support

The HP 10BII financial calculator has a built in settings for payments per year that attempts to auto-  
adjust the interest rate based on how many periods there are in a year. However, this does not auto-  
adjust the N and PMT components (you still have to do this manually), which makes this function  
cause more problems than it's worth.

### How to Use an HP 10BII Financial Calculator

The time value of money application built into the HP 10bII is used to solve annuities that involve  
regular, uniform payments. Annuity problems require the input of 4 of these 5 values: . Once these  
values have been entered in any order, the unknown value can be computed by pressing the key  
for the unknown value.
