The Industrial Revolution was the first period in history during which there was a simultaneous increase in both population and per capita income. According to Robert Hughes in *The Fatal Shore*, the population of England and Wales, which had remained steady at six million from 1700 to 1740, rose dramatically after 1740.

### **Industrial Revolution - Wikipedia**

The first industrial revolution followed the proto-industrialization period. It started at the end of the 18th century to the beginning of the 19th. The biggest changes came in the industries in the form of mechanization. Mechanization was the reason why agriculture started to be replaced by the industry as the backbone of the societal economy.
