"Life Between Buildings: Using Public Space" is a classic that applies substance and quantitative research to the field of urban planning. Jan Gehl, the author of "Cities for People," takes his analysis beyond urban design to talk about how public spaces are used, why, and what designers can do to improve cities.

First published in 1971, Life Between Buildings: Using Public Space, as its name suggests, talks about the issues planners and designers should think about in creative active public spaces. That to promote active public life, we have to move away from planning approaches that focus on the building structure, its

Biography. Gehl received a Masters of Architecture from the School of Architecture at the Royal Danish Academy of Fine Arts (KADK) in Copenhagen in 1960, and practiced architecture from 1960 to 1966. In 1966 he received a research grant from KADK to study "the form and use of public spaces"; his book Life between Buildings (1971) reports his studies of public life in public spaces, and develops his theories about how city planning and architecture influence public life.
