London Overground Network Map • Mapsof.net

The capital's transport authority, TfL, has quietly released a lovely new map showing where it expects its heavy rail London Overground Network to take you by 2026. The map was released as part of a consultation on its plans to extend the Gospel Oak-Barking line to Barking Riverside, the site of a big new housing estate.

TfL has quietly released a map of the London Overground in ...

London Overground (also known simply as the Overground) is a suburban rail network serving London and its environs. Established in 2007 to take over Silverlink Metro routes, it now serves a large part of Greater London as well as the home county of Hertfordshire, with 112 stations on nine different routes. It is complementary to the London Underground. The Overground forms part of the United ...

The proposed 2026 map (Picture: Transport for London) () This is what the London Overground network could look like in 2026. Transport for London (TfL) released the map as part of a consultation on...

London Overground: How the network could look in 2026 ...

Whether the London Overground needs a separate map of its own for publicity purposes is a moot point, as it is really just an operating company for the ex-Silverlink lines (plus the East London line in due course). As far as the public is concerned, the tube map or the London Connections map are more useful for planning a journey.

The London Overground covers Greater London and ...

Map of London commuter rail: stations & lines

London Overground also appears on the Tube map in its corporate orange. Concurrent with the presentation of the DLR, London Overground is shown as a double stripe rather than a solid line, to denote its status as a franchised line operating within the TfL network.

London Overground | UK Transport Wiki | Fandom

Overground Network (abbreviated on or ON) was a branding initiative launched in 2003 by the Strategic Rail Authority (SRA) and Transport for London (TfL), the public transport authority in London, England. Its aim was to encourage use of National Rail services in South London. The project was a partnership between the SRA, TfL, three train operating companies (Connex South Eastern, South Central ...
