Time in space. A very common way of dealing with time is to cast it in space, although we often have different ways of doing this. Time as a line. Time is often represented internally with the metaphor of a line. We literally see a time stretching out into the future, along which we place the events of our life. The line may be straight or curved. It may be one, two or three-dimensional.

Implied Metaphors - These metaphors compare two things without using specific terms. For example, "Spending too much time with him is worse than swimming in a sea of sharks." Mixed Metaphors - These metaphors jumble comparisons together, often without any logic. For example, "In the heat of the moment, she turned to ice and danced to the beat ..."

## **Metaphor Examples, Definition and Types**

A metaphor is a figure of speech that describes an object or action in a way that isn't literally true, but helps explain an idea or make a comparison. Here are the basics: A metaphor states that one thing is another thing; It equates those two things not because they actually are the same, but for the sake of comparison or symbolism; If you take a metaphor literally, it will probably sound ...
