A style guide, or style manual, is a set of standards for the writing and design of documents, either for general use or for a specific publication, organization or field. The implementation of a style guide provides uniformity in style and formatting within a document and across multiple documents. A set of standards for a specific organization is often known as "house style". Style guides are common for general and specialized use, for the general reading and writing audience, and for students

Technical editing experts have provided several guidelines to create a sharp-looking document. They include putting away writing for a day, reading it out loud, using text-to-speak program, building a checklist of writers' most common mistakes, customizing spell check, and reading back to front, bottom to top, right to left. Step 6.
