Sometimes people use the words “math skills” and “math concepts” interchangeably. They are not the same, but they do go hand and hand. Understanding how new math skills and concepts work together will give you a new perspective on math education and math challenges. Definition of Skills Skills are actions. People do them.

## **How Math Concepts and Math Skills Work Together and Why ...**

Having mathematical skill is something different. To be skilled means to be able to perform what you have the concept of. This means that a person can only be called skilled if he or she not only knows the concept but can also apply it in the proper manner.
