an effective entrepreneurial ecosystem and measure the outcomes. SourceLink can help you measure your progress based on your objectives.

Measure your entrepreneurial ecosystem

Internationally, the ecosystem concept is used as a tool by policymakers to promote innovation and entrepreneurship across city-regions. By building a partnership between the research and policy communities in the two countries, the researchers aim to critically examine and further develop the concept of “entrepreneurial and innovation ecosystems” by engaging with policy user communities.

The purpose of this paper is to develop an operational definition and an empirical model for measuring entrepreneurial ecosystem elements and the quality of regional entrepreneurial ecosystems. The model is informed by and extends previous conceptual and empirical work on the functional attributes or indicators of entrepreneurial ecosystems.
