Anxiety disorders are among the most common psychiatric illnesses, and acupuncture treatment is widely accepted in the clinic without the side effects seen from various medications. We designed a scalp acupuncture treatment protocol by locating two new stimulation areas. The area one is between Yintang (M-HN-3) and Shangxing (DU-23) and Shenting (DU-24), and the area two is between Taiyang (M-HN-9) and Tianchong (GB-9) and Shuaigu (GB-8).

Scalp acupuncture treatment protocol for anxiety disorders ...

Patients can receive scalp acupuncture treatment in a natural sitting or lying position. Very fine, short needles are inserted superficially in the scalp and generally produce no pain or discomfort. While stimulation is applied to the needles, patients are instructed to follow specific physical and breathing exercises, focusing energy on the target areas.
