Science And Spirituality

The extensive explorations of the relationships between science and spirituality over the past four decades have made it evident that the sense of oneness, which is the key characteristic of spiritual experience, is fully confirmed by the understanding of reality in contemporary science.

The Relationship between Science and Spirituality

Likewise science and spirituality need not be thought of as separate for, it seems to me, they are also highly compatible. They are complementary, needing each other to make something whole,...

Science and Spirituality | Psychology Today

To me, the aim of science is to uncover the deepest spiritual truths, and the aim of spirituality is the search for the cause behind scientific fact. Physical scientists who have chosen science as their field are not much different from spiritual scientists who spend time engaged in the spiritual search.

Science and Spirituality: Debating Human Existence ...

Science is not only compatible with spirituality; it is a profound source of spirituality. When we recognize our place in an immensity of light years and in the passage of ages, when we grasp the intricacy, beauty and subtlety of life, then that soaring feeling, that sense of elation and humility combined, is surely spiritual.

Carl Sagan on Science and Spirituality - Brain Pickings

Science studies phenomena in the material world, the realm of the measurable and weighable, while spirituality and true religion draw their inspiration from experiential knowledge of the aspect of the world that Jungians refer to as "imaginal," to distinguish it from imaginary products of individual fantasy or psychopathology.

Science and Spirituality: Observations from Modern ...

Faith is not presented as an answer to what science may yet resolve through laws such as the Quantum Theory but rather leading to a belief in a moral law based on "God given" higher values.
