$F = -kx$. the minus sign shows that this force is in the opposite direction of the force that's stretching or compressing the spring. The variables of the equation are: F which represents force, k which is called the spring constant and measures how stiff and strong the spring is, and x is the distance the spring is stretched or compressed away from its equilibrium or rest position.

Today RWU Law's ASB program is a robust and popular program placing students in local, regional and national pro bono legal service projects during spring break. The program focuses on areas of the law where clients often lack adequate representation and works to secure projects that give students the most rewarding experience possible. Some of our previous ASB placements include:
