The Greedy Triangle Scholastic Bookshelf - TruyenYY

Verified Purchase. This book is a great introduction to kids of different shapes and how they are found everywhere in our world. It's a cute story about a triangle who wants to try new things (be objects made of other shapes) so he changes and enjoys new experiences. As he changes the author notes the number of sides he has, the name of the shape he changes into, and explores all of the objects the "triangle" can be in his new shape.

The Greedy Triangle - Marilyn Burns - Google Books

The Greedy Triangle is all about a triangle who is not happy with its three sides and angles. The triangle goes to the shape shifter to give him just one more side and one more angle so he became a quadrilateral. Over time the quadrilateral became dissatisfied and wanted another edge and another angle to become a hexagon.
