Top Level Headings In Your
There are five levels of heading in APA Style. Level 1 is the highest or main level of heading, Level 2 is a subheading of Level 1, Level 3 is a subheading of Level 2, and so on through Levels 4 and 5. The number of headings to use in a paper depends on the length and complexity of the work. If only one level of heading is needed, use Level 1. If two levels of heading are needed, use Levels 1 and 2. If three levels of heading are needed, use Levels 1, 2, and 3 (and so on).

Headings - APA Style
If the document is basically stand-alone, for example Things to See and Do in Geneva, the top-level heading is probably the same as the title. If it is part of a collection, for example a section on Dogs in a collection of pages about pets, ...

Use for top level heading - Quality Web Tips
You can number headings so that top-level headings (Heading 1) are numbered 1, 2, 3, for example, and second-level headings (Heading 2) are numbered 1.1, 1.2, 1.3. Open your document that uses built-in heading styles, and select the first Heading 1. On the Home tab, in the Paragraph group, choose Multilevel List.

Number your headings - Word
Headings play an important role in structuring your website's content. Ranging in importance levels—from the most crucial H1 to the tiniest segment headed by H6—, headings give both the visitors and the search engines a clue about the content's hierarchy.

H1-H6 Heading Tags: the Ultimate Guide - ContentKing
Top-level headings communicate what's most important and divide content into major subjects. Make them as specific as you can to catch the reader's attention. When there's a lot to say under a top-level heading, look for two or more distinct topics, and use second-level headings (subheads) to break up the large section into more scannable chunks.

Headings - Microsoft Style Guide | Microsoft Docs
The paper or chapter title is the first level of heading, and it must be the most prominent. Headings should be styled in descending order of prominence. After the first level, the other headings are subheadings—that is, they are subordinate. Font styling and size are used to signal prominence.

How do I style headings and subheadings in a research ...
MD041 - First line in file should be a top level heading. Tags: headings, headers. Aliases: first-line-heading, first-line-h1. Parameters: level, front_matter_title (number; default 1, string; default "^\s*title:") This rule is intended to ensure documents have a title and is triggered when the first line in the file isn't a top level (h1) heading:
