Why Globalization Works Martin Wolf

Why Globalization Works is a great introductory book on the topic. It is well structured, well argued, covers all the bases and answers many of the critics' questions. Wolf has compiled an impressive array of data to support his views and the critics would need to counter with equally compelling evidence.

Why Globalization Works (Yale Nota Bene): Martin Wolf ..

In this book a highly distinguished international economist scrupulously explains how globalization works as a concept and how it operates in reality. Martin Wolf confronts the charges against globalization, delivers a devastating critique of each, and offers a realistic scenario for economic internationalism in the future.

Why Globalization Works | Yale University Press

A distinguished international economist here offers a powerful defense of the global market economy. Martin Wolf explains how globalization works, critiques the charges against it, argues that the biggest obstacle to global economic progress has been the failure not of the market but of governments, and offers a realistic scenario for economic internationalism in the post-9/11 age.

Why Globalization Works - The Economist

Much of Why Globalization Works is a close to point-by-point examination and rebuttal of anti-globalization claims, a useful and fairly comprehensive overview of all that supposedly speaks against globalization -- which becomes, given Wolf's answers and explanations, a solid argument in favour of globalization. Wolf addresses most of the anti-globalization arguments, though there are few which can be taken very seriously; his frustration with some of what he has to deal with is evident ...

Why Globalization Works - Martin Wolf

Wolf begins with the concept that the value of the individual and the importance of that individual's right to pursue economic advancement are the foundation of the world's great democracies. From there, he levels a devastating critique against the anti-globalists and the diverse interests that oppose the global integration of markets.

In Why Globalization Works, Martin Wolf, chief economics commentator of The Financial Times and a one time economist for the World Bank brings a scholarly defense of economic liberalization, along with a scathing reprimand for its critics. Mr.

Why Globalization Works (Yale Nota Bene) - Kindle edition ...

Martin Wolf, a British economist and prominent journalist at the Financial Times, is an ardent defender of globalization, i.e. of global economic integration through free trade. His book aims to demonstrate that globalization makes the world better off and that the problem is not that there is too much globalization but far too little.
